#### Introduce

Standard Hinge Kit for exhaust fans with wheels 20 inches or smaller. Made of 12-Gauge Galvanized Steel. Includes hardware and ships loose. Allows easy access to fan and duct for cleaning and service. This Hinge Kit has a unique stopping feature that prevents the hinge from opening past a specific point. You can easily adjust the angle as you fit. The hinge mounts to the side of the fans edge. Once positioned, simply bolt the other part of the hinge directly to the stack. Then, when the fan is tipped open, the hinge pivots on the bolt and stops against the plate that is mounted to the stack.
